Subject: [Non-DoD Source] Contact exchange

Hi Ellie, Beth, and Marilyn,

I wanted to pass on my contacts at the Army Corps in case you have any questions as you move forward on the draft 401 certification process. Ken Duncan is out of the Corps' Portland Office and works with the Bonneville, The Dalles, and John Day hydroelectric facilities. Don Redman out of the Corps' Walla Walla office works with McNary, Ice Harbor, Lower Monumental, Little Goose, and Lower Granite hydroelectric facilities. They are great resources and are the people who I've been coordinating with on permit application, operations, facilities questions, and tours of the dams.

I also wanted to give them your contact information as well in case they have questions on the 401 certification process. Ken and Don, Ellie Key is my contact at Ecology. Beth Moore and Marilyn Fonseca are my contacts at ODEQ. Please feel free to contact each other as needed.

Thanks,

Jenny Wu
